

COOLREF

COMMERCIAL ROOF JACK

(Model No. RJ-S1)

Traditional rounded roof jack designs are only ideal for residential usage. COOLREF special square base design will be much more practical and easy to install for running refrigeration and electrical pipeline through the roof.

ADVANTAGE

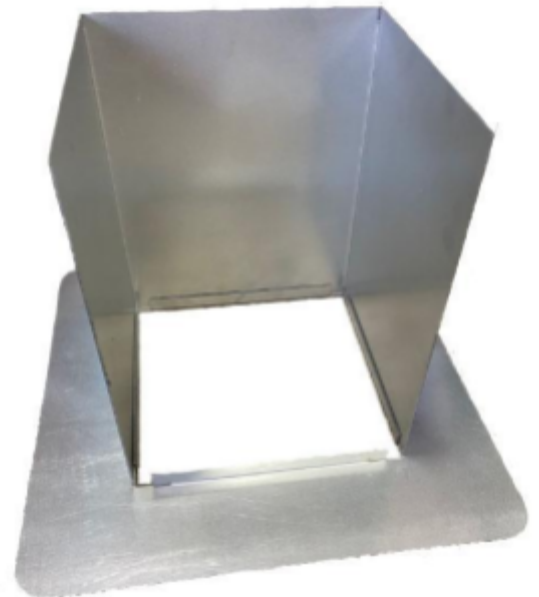

- 100% dip galvanized, no corrosion
- Easy to install
- Adjustable opening, which can give you extra space to weld
- More economical

MATERIAL

- Galvanized Steel 24 GA (4 pieces)
- ¼" Stainless Steel Screws

SIZE AVAILABLE

- 14.5 x 14.5 x 8.5 (inches)
